

Dr A.M Masquelier, CEO Genethon, President and CEO Genosafe

A.M Masquelier, is a medical doctor specialised in endocrinology. After 8 years as practitioner, she has joined the Pharma Industry (Searle, Innothera) to contribute at international drug developments in many different therapeutic areas as in vitro fertilisation, metabolism, oncology, rheumatology, anti-infectious diseases, VIH... She then has been named as CEO of international CROs* (MDS, Omnicare, Aster-Cephac) in order to develop and organise drugs development services for Pharma and Biotech companies in Europe.

Since 2005 Dr Masquelier has been joining Genethon, as CEO, bringing her international experience in drug development, services, medical affairs, her competence in business development strategy and international management, her network of opinion leaders (Pharma, Institutions & Investigators) and relationships with the Government authorities (Health, Research and Industry), health Agencies (EMEA, AFSSAPS), and LEEM (French Pharmaceutical union).
